

Heavy Duty Clamp Coverage Guide

THE ALL-MAKES LEADER

Quality Aftermarket Parts and Components

Welcome to the Heavy Duty Clamp Coverage Guide. Inside you will find a selection of aftermarket clamps used on heavy duty diesel engine exhaust products, turbochargers, heavy duty hoses, general purpose, air and fuel lines, and heavy duty torquing applications. TRP heavy duty clamps provide less emissions, less weight, and more torque control.

Each part is designed to OE standards and engineered for precision fit. Parts are stocked in conveniently located warehouses throughout North America for quick delivery and reduced downtime. There are no hidden surprises in the pricing, and freight to the dealer location is included on product ordered from our network of distribution centers. Find a retailer nearest you for more information.

About TRP

TRP, established in 1994, is a global brand that brings together industry-leading suppliers from around the world and offers expert service and technical support. The goal remains to offer a full line of all-makes after-market products that exceed customer expectations for quality, reliability and value.

TRP provides after-market parts for all makes of commercial equipment – including trucks, trailers, buses, and engines – that surpass expectations for quality, dependability and value. TRP provides quality replacement parts for all makes including:

Blue Bird	Kenworth
Chevrolet	Mack
Ford	Peterbilt
Freightliner	Sterling
GMC	Thomas
Great Dane	Volvo
International	Wabash
IC Bus	Western Star

Regardless of the age, make or application of your equipment, you can rely on TRP for a full line of replacement parts.

*Utilizes inner liner for soft/silicone hose use

A lightweight, streamlined hose clamp generally used in small-diameter applications, such as air and fuel lines.

Una abrazadera ligera, aerodinámica utiliza generalmente en aplicaciones de pequeño diámetro, como líneas de aire y combustible.

Un collier léger et rationalisé généralement utilisé dans des applications de faible diamètre, comme les lignes d'air et de carburant.
