

INSURANCE COLLISION REPAIR CATALOG U.S. & CA

MARCH 2024

Quality Aftermarket Parts

Find a distributor near you at: peterbilt.com and TRPparts.com
Nationwide 1 Year Warranty • Distributed by PACCAR Parts

Quality Aftermarket Parts and Components

Welcome to the Peterbilt Insurance Collision Repair Catalog. Inside you will find a selection of repair parts that are commonly used in front end collisions. These parts will help reduce repair cost and provide an opportunity to retain resale value.

You will find a wide selection of grilles, hoods, bumpers, fenders, glass, fuel tanks and more. Each part is designed to either OE or Aftermarket standards and engineered for precision fit. Parts are stocked in conveniently located warehouses throughout the United States for quick delivery and reduced downtime. There are no hidden surprises in the pricing, and freight to the dealer location is included on product ordered from our network of distribution centers.

All products feature a full warranty backed by PACCAR Parts and a nationwide network of authorized retailers. For the retailer nearest you, visit **www.peterbilt.com**

TRP Grille Guards

TRP Grille Guards are designed with oversized 3" stainless steel tubing that offers the most protection for your truck. Every TRP Grille Guard comes with heavy-duty mounting brackets included. The high polished stainless steel provides a maintenance free finish that will not rust. TRP Grille Guards are compatible with all major collision mitigation systems and factory fog lights. Guards can be installed in as little as 30 min and are backed by a 1-year, unlimited mile warranty.

- 3" Diameter Stainless Steel
- CMS Radar Compatible
- Fog Light Compatible
- 3/8" Heavy Duty Mounting Brackets
- High Polish - Maintenance Free Finish
- Easy Install - No Power Tools Required

TRP Hood Cables

TRP Hood Cables reduce the range of motion of the hood when open, which prevents the hood from opening into other parts of the body and damaging the hinges. The TRP Hood Cables come in a variety of lengths and have various applications to cover multiple truck models.

- All-Makes Applications: Kenworth, Peterbilt, Volvo, International, Freightliner, GM
- All-Steel Core Cable with high strength and wear resistance
- Fastening is firm and will not fall off easily

TRP HOOD SPRINGS

TRP Hood Springs

TRP Hood Springs are a vital replacement part that assists in the operation of the hood. These hood springs are a low-cost option and are made from durable high-quality materials.

- Easy to install
- Color matched to the OE part for easy identification
- Packaged and sold Individually

ACHSS15

TRP Air Cleaners

The TRP Stainless Steel Air Cleaner Kits combine high performance with an eye-catching stainless-steel finish. They are offered in two different sizes - 15" or 13" and can come with or without a kit. The vortex style air cleaners have a reputation for a large dirt holding capacity along with an ease of serviceability.

- No visible bolt and nuts on exterior making for a very clean stainless-steel finish
- Complete kit comes with Air Cleaner Housing, 2 mounting straps, and 1 mounting plate
- Made with high quality products to ensure longevity
Packaged and sold Individually

TRP Fenders

TRP 379 Fenders

- Manufactured from 5052 Grade Aluminum
- Primed and ready for paint
- Lightweight aluminum construction
- OEM Specs

Peterbilt 388/389 and Kenworth T800 Fenders

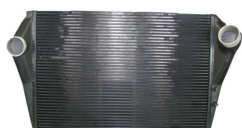

- High Quality Fiberglass
- Sandable Gelcoat Finish
- Primed and Ready to Paint
- Pre-Drilled Holes for Mounting

TRP Radiators and Charge Air Coolers

Tasked with preventing the vehicle from overheating, the radiator is vital to keeping vehicles up and running.

- Longer header tabs for increased pressure resistance & leak reduction
- Age-hardening header plate that strengthens over time
- Double-Hemmed fin design for increased stability and heat disbursement
- Double-Header plate design for increased pressure and vibration resistance

TRP METAL BUMPERS

TRP Metal Bumpers

The TRP all-makes bumper line is expanded and better than ever, now offering bumpers for approximately 170 truck models, including standard replacement bumpers and some custom options. Made in the USA with all metal, one-piece construction, they are designed and tested to strict SC4/5 corrosion protection standards - the highest levels.

- 350+ part numbers
- Material choices are chrome steel, 304 stainless steel or black powder coated steel
- Chrome steel bumpers include black backside paint for a great look and additional corrosion resistance

TRP Mirrors

TRP Aero Mirrors are tested, reliable and industry proven! Each mirror is of high quality and manufactured with a variety of adjustable settings, materials and colors. TRP Aero Mirrors can withstand harsh demands of any job both on and off the highway. In short, these versatile mirrors enable drivers to safely see and execute any job. The mirrors come with PACCAR's standard one-year warranty.

- Both the driver's side and the passenger's side are developed in accordance with OE mirrors to ensure that the products 100% fit the trucks
- Black and Chrome versions are available depending on customer preference
- Aerodynamic design helps reduce fuel consumption
- ISO 9001 Certified

TRP Windshields

The TRP glass program brings you the highest quality aftermarket replacement windshields at affordable prices. TRP glass provides improved clarity over other replacement glass which means increased visibility and less driver fatigue. TRP replacement windshields meet stringent quality standards to ensure proper fit, reducing installation time. All TRP windshields are made with your safety in mind through a lamination process where two pieces of glass are bonded together by a vinyl inner layer. If an accident occurs, the vinyl inner layer prevents the glass from shattering and provides strength which helps to keep occupants in the vehicle during a head-on collision. The glass breaks, but the pieces stick to the vinyl.

- High Quality Replacement Windshields
- Popular All-Makes Applications, including City and School Buses
- Meets stringent quality standards to ensure proper fit, while also reducing installation time
- Meets all DOT safety standards
- Manufactured to OEM specifications to ensure consistent fit and easy installation
- Convenient package quantities fit your business requirements

TRP Window Regulators

The TRP brand offers great product value and quality with competitive pricing in the trucking industry. Quality conscious customers replace and maintain heavy duty window components using these durable TRP products. These affordable, rugged options are alternates to OEM products and are application specific.

- Replaces and maintains regulators with high-grade TRP products
- Power Regulators packaged and sold individually with motors
- Products operate at maximum efficiency
- Easy to install

TRP DOOR AND WINDOW HANDLES

TRP Door and Window Handles

TRP introduces a wide range of all-makes door and window handles supported by application and cross-reference information. These offerings deliver great value and quality at competitive prices, providing affordable alternatives to industry OEM handles.

- Cover a variety of makes and models
- Black and Chrome handles available
- Proper fit, form and function ensured
- Packaged and sold individually

TRP Exhaust

TRP offers a wide selection of premium exhaust stacks in chrome that come in a variety of lengths. These exhaust products are made of high-quality materials, are plated to industry specifications, and are very durable. With many types of configurations to choose from, you're sure to find a configuration that will fit your needs.

- Meets industry standards
- Precision engineered to provide a tight seal and fit

TRP EXHAUST STACKS

Part Number	Description	OE Cross Reference
EP50S260C	Exhaust Stack, Straight (5"X60"), Chrome OP	K180-1179-60CP
EP50CS254C	Exhaust Stack, Curved (5"X54"), Chrome OD	K180-1096-54CP, 89997C-TP
EP50CS218C	Exhaust Stack, Curved (5"X18"), Chrome OD	K180-1096-18CP

Consistent OEM Quality:

**TRP Exhaust stacks meet or exceed OEM specifications.
They are precision engineered to provide a tight seal and precise fit.**

See your dealer for additional applications not listed above.

OE QUALITY TANKS

- Peterbilt Fuel Tanks are certified to meet all federal safety requirements
- Peterbilt Fuel Tanks undergo rigorous drop tests to ensure safety

SPECIAL NOTE:

No portion of the filler, boss or multi-boss should be closer than 6 inches fore or aft of the centerline of any exhaust elbow. All measurements are from the left weld line as illustrated below.

TRP Fuel Tank

The TRP all-makes fuel tank program offers a cost-effective alternative to repairing or replacing your tank with a lower quality will fit tank. Each tank is manufactured using robotic processes to ensure that they meet stringent federal safety requirements.

- Made from .125" OEM Grade Aluminum for maximum weight to strength ratio
- Available in 23", 24.5", 25", and 26" diameters to fit all major OEM applications
- Filler neck locations: right, center, and left, for a variety of fit and functions options
- 50-to-150-gallon sizes to ensure multiple sizes for each diameter
- Acid etch finish for consistent and uniform finish
- Fuel cap, vent, and standard fittings offer convenience and reduced cost
- Freight included in price compared to other suppliers where freight costs extra
- 2-year Nationwide warranty means service is available at 600+ locations

Note: See dealer for specific tank measurements. If the part number ends in LH or RH, then the tank is specifically for either the left hand (LH) or right hand (RH) side, respectively. LH = Driver's Side RH = Passenger Side. If the part number ends in LF or RF then the tank can be located on either side of the truck. LF for Driver's Side (the A LH dimension would be toward the front of the truck) RF for Passenger's Side (the A RH dimension would be toward the front of the truck) The overall length measurement (C dimension) is from end cap to end cap.

TRP FUEL TANK CAPS

FTC003L

FTC003

FTC001

TRP Fuel Tank Caps

TRP Fuel Tank Caps are a durable, high-quality replacement for OE Fuel Tank Caps. Fuel Tank Caps are used to seal off the fuel tank, preventing liquid fuel or vapor from escaping the system. The TRP Fuel Tanks cover a variety of heavy and medium duty applications and offer both locking and non-locking cap options.

Features and Benefits

- Manufactured with excellent thread engagement between cap and filler necks
- Designed for high-grade performance both on and off the road
- Two keys provided with locking cap

TRP QUARTER FENDERS

QT00101

QT00071

QT00213

TRP Quarter Fenders

TRP Quarter Fenders have a proven reputation for a long-lasting bright appearance and exceptional durability. These quarter fenders provide long-term corrosion resistance because the stainless surface does not pit, crack or face despite the inevitable stone impact and other rough treatment trucks encounter in heavy duty service. This superior durability allows for an extended warranty weight savings.

- 18-gauge formed metal provides greater strength
- 25" fender shield width enhances spray suppression and redirection

TRP Rubber Components

Choosing Rubber:

Choosing rubber over polyurethane is preferable when flexibility, elasticity, and vibration absorption are crucial. Rubber's natural properties make it effective for applications where shock absorption, noise reduction, and a softer material are desired.

Choosing Polyurethane:

Polyurethane is preferred over rubber when higher durability, abrasion resistance, and load-bearing capabilities are required. Polyurethane materials often outperform rubber in terms of wear resistance and can withstand harsh environmental conditions.
