MUDFLAPS

**Quickly and Easily
Remove Snow
and Ice with these
Mudflaps!**

12 X 18 (30 x 46 cm)

The Rainmaster feature allows snow and ice to be quickly and easily removed. This mudflap is made of high quality virgin rubber designed for improved protection in everyday traffic.

Features & Benefits

- Rainmaster backing designed with special vertical ribs that trap and deflect water spray for improved highway safety.
- The added weight of this flap in conjunction with the reinforcing side ribs provides some anti-sail characteristics.
- Available in Regular or Universal Double Bar models. Available in plain and personalized.
- Includes all of the features of American Biltrite's standard mudflap. The Rainmaster feature makes it easier for you to see vehicles behind and beside you.
- Increased visibility for those around you. Safer for you and the traffic surrounding you.
- This flap is easily cleared of snow and ice build-up.

Stock up on quality mudflaps now through PACCAR PARTS.
