

ENGINE COOLANT - (US)

Part # EC3501

Part # EX3501

EXTENDED LIFE COOLANT PREDILUTED 50/50

Not all coolants are created equal. TRP Extended Life Coolant (ELC) provides extended life operation without the use of extenders or supplemental coolant additives (SCAs). Cooling is not the only purpose of coolant, it must also be formulated to protect your truck's internal components from liner pitting, corrosion, and premature failure with improved protection of aluminum components in modern engines. TRP Extended Life Coolant is the most advanced cooling technology available today.

CROSS REFERENCE

TRP	Chevron	Shell	CAT
EC3501	227811-486	550061223	101-2844
EX3501	227071-500	550041812	

FEATURES & BENEFITS

- » 600,000 mile/900,000 kilometer protection (with Nitrite)
- » 1,200,000 mile/1,900,000 kilometer protection (Nitrite Free)
- » CAT EC-1 approved
- » No additional inhibitors (SCAs) are needed, regular testing is all that is required
- » Ready to pour! No need to mix with water
- » Meets the following Specifications: ASTM D3306, D4985, D6210
