

HYDRAULIC SHOCK ABSORBERS

TRP HYDRAULIC SHOCKS

TRP hydraulic shocks are engineered for long life and superior performance. Hydraulic shock absorbers provide dampening action by transferring oil, under pressure, through valves which restrict the oil flow. Chromed piston rods and high quality leak free seals enhance the long product life and performance of TRP hydraulic shocks. The superior valve technology used in manufacturing TRP hydraulic shocks also ensures quality performance, control and durability.

FEATURES & BENEFITS

- » 1 Year/100,000 mile warranty
- » Best in class hydraulic stop
- » Super finished chromed piston rods
- » Durable self-compensating piston seal design
- » Class 6 – 8 tractor, truck and trailer applications
- » Direct Replacements for major OEMs
- » Available via PDC and DSP

DIRECT SHIP DETAILS

- » Order code: GBLRC
- » Lead time: 7 days or less
- » Minimum order: 1 shock
- » Pre-paid freight: 100 shocks
- » Stock class: 091H
